

ISO Coordinate for Computerized Numerical Control (CNC) Mashine Fundamental

RM74.30

ISBN : 978-967-0257-90-7

Authors : Abd Khahar Nordin, Nor Fauzi Tamin, Mohd Hadzley Abu Bakar, Umar Al-Amani Azlan

Synopsis :

This book is produced as learning materials or reference materials for CNC machine operators either to students, teachers and machine operator. This book is also produced with simple language but it is packed with information, techniques and knowledge in producing CNC programmers. Every step of work and topics are produced along with a detailed and clear explanation make it easy to understand. This book is directly related to the application in CNC machines. In Addition, the book also provides some clear examples and it is hoped that reader can better understand the use of the codes (G-code, M-code, feed rate, spindle speed and etc.) and the sequences of the program illustrated in the book
